This issue of the MV Mag was inspired one of our all-time favorite themes: **fantasy.**

Given this, we knew exactly who to call on for the cover and a triple photoset feature: MV Star Lana Rain. She's adored by thousands of fans, and fellow MV Stars, for her creativity and originality—especially her elaborate cosplay-themed vids. But behind her fanciful appearance—here, in 2B, Shimakaze, Super Sonico—a serious mission. She tells MV Mag in her Xposed video interview, "Empowerment is being able to inspire others by comfortably expressing yourself." That, she does.

And it's precisely what the alluring PlaywithbabyJ projects in her photoset, Luxurious Skin. Donning a pink babydoll getup (though not for long!), the MV Star is the first to literally step into the MV logo. She reminds us all that **fantasy begins in the head, not the groin:** "Always keep your curiosities in mind, nothing is ever 'too weird' or anything."

Next, the pierced and tattooed Carley Jet lights up our wild sides in Electric Feel. And in Peek-A-Dew, Gemma Minx steps out of her frilly lingerie and into a steamy, dreamy shower. Lastly, thenovastorm shows us a different angle in Carmine Cheeks: In a tightly framed, darkened room that could easily double as a make-believe forest, with touches of shiny gold tree trunks, a single fleck of turquoise panties ignites our...minds.

“

I love the ability to write myself into whatever storyline I want.

1. When did you decide that the adult industry was the right place for you?

I decided when I first squirted on camera. I had no idea I even could! It was euphoric.

2. What do you love about creating adult vids?

I love the ability to write myself into whatever storyline I want, as opposed to having to be in someone else's. It's so valuable to enjoy the production and I find it easier when it's my own.

“

Always keep your curiosities in mind, nothing is ever too weird.

3. If you could only keep one sex toy for the rest of your life, what would it be and why?

My Hitachi! It's phenomenal, I sometimes enjoy adding a butt plug, too!

4. What was the weirdest request for a custom that you've ever had?

I haven't really had an odd custom vid request, but I have been asked to quote a bottle of my piss before.

5. If you could have one superhero as a friend, who would it be?

Kim Possible! Major girl toon crush right here.

6. What does your dream date night look like?

Well first: Always be clear with what does and doesn't work for you. Second: Always keep your curiosities in mind, nothing is ever "too weird" or anything. Lastly: Never forget to make the other person feel good! Sex is always about two people.

7. What 3 pieces of advice would you give for a healthy and fun sex life?

Number one is be flexible! Listen to what your partner might want to try that's new to you both. Two: Don't be shy, it's extremely sexy to a guy when a woman is turned on and embraces the pleasure they're giving each other. And three: Don't kink shame. Things that you're not into might be something someone finds sexy. So be neutral.

8. If you won a million dollars, what is the first thing that you would buy?

Mama would get all her bills paid! She deserves it.

1. Where does your fascination with piercings come from?

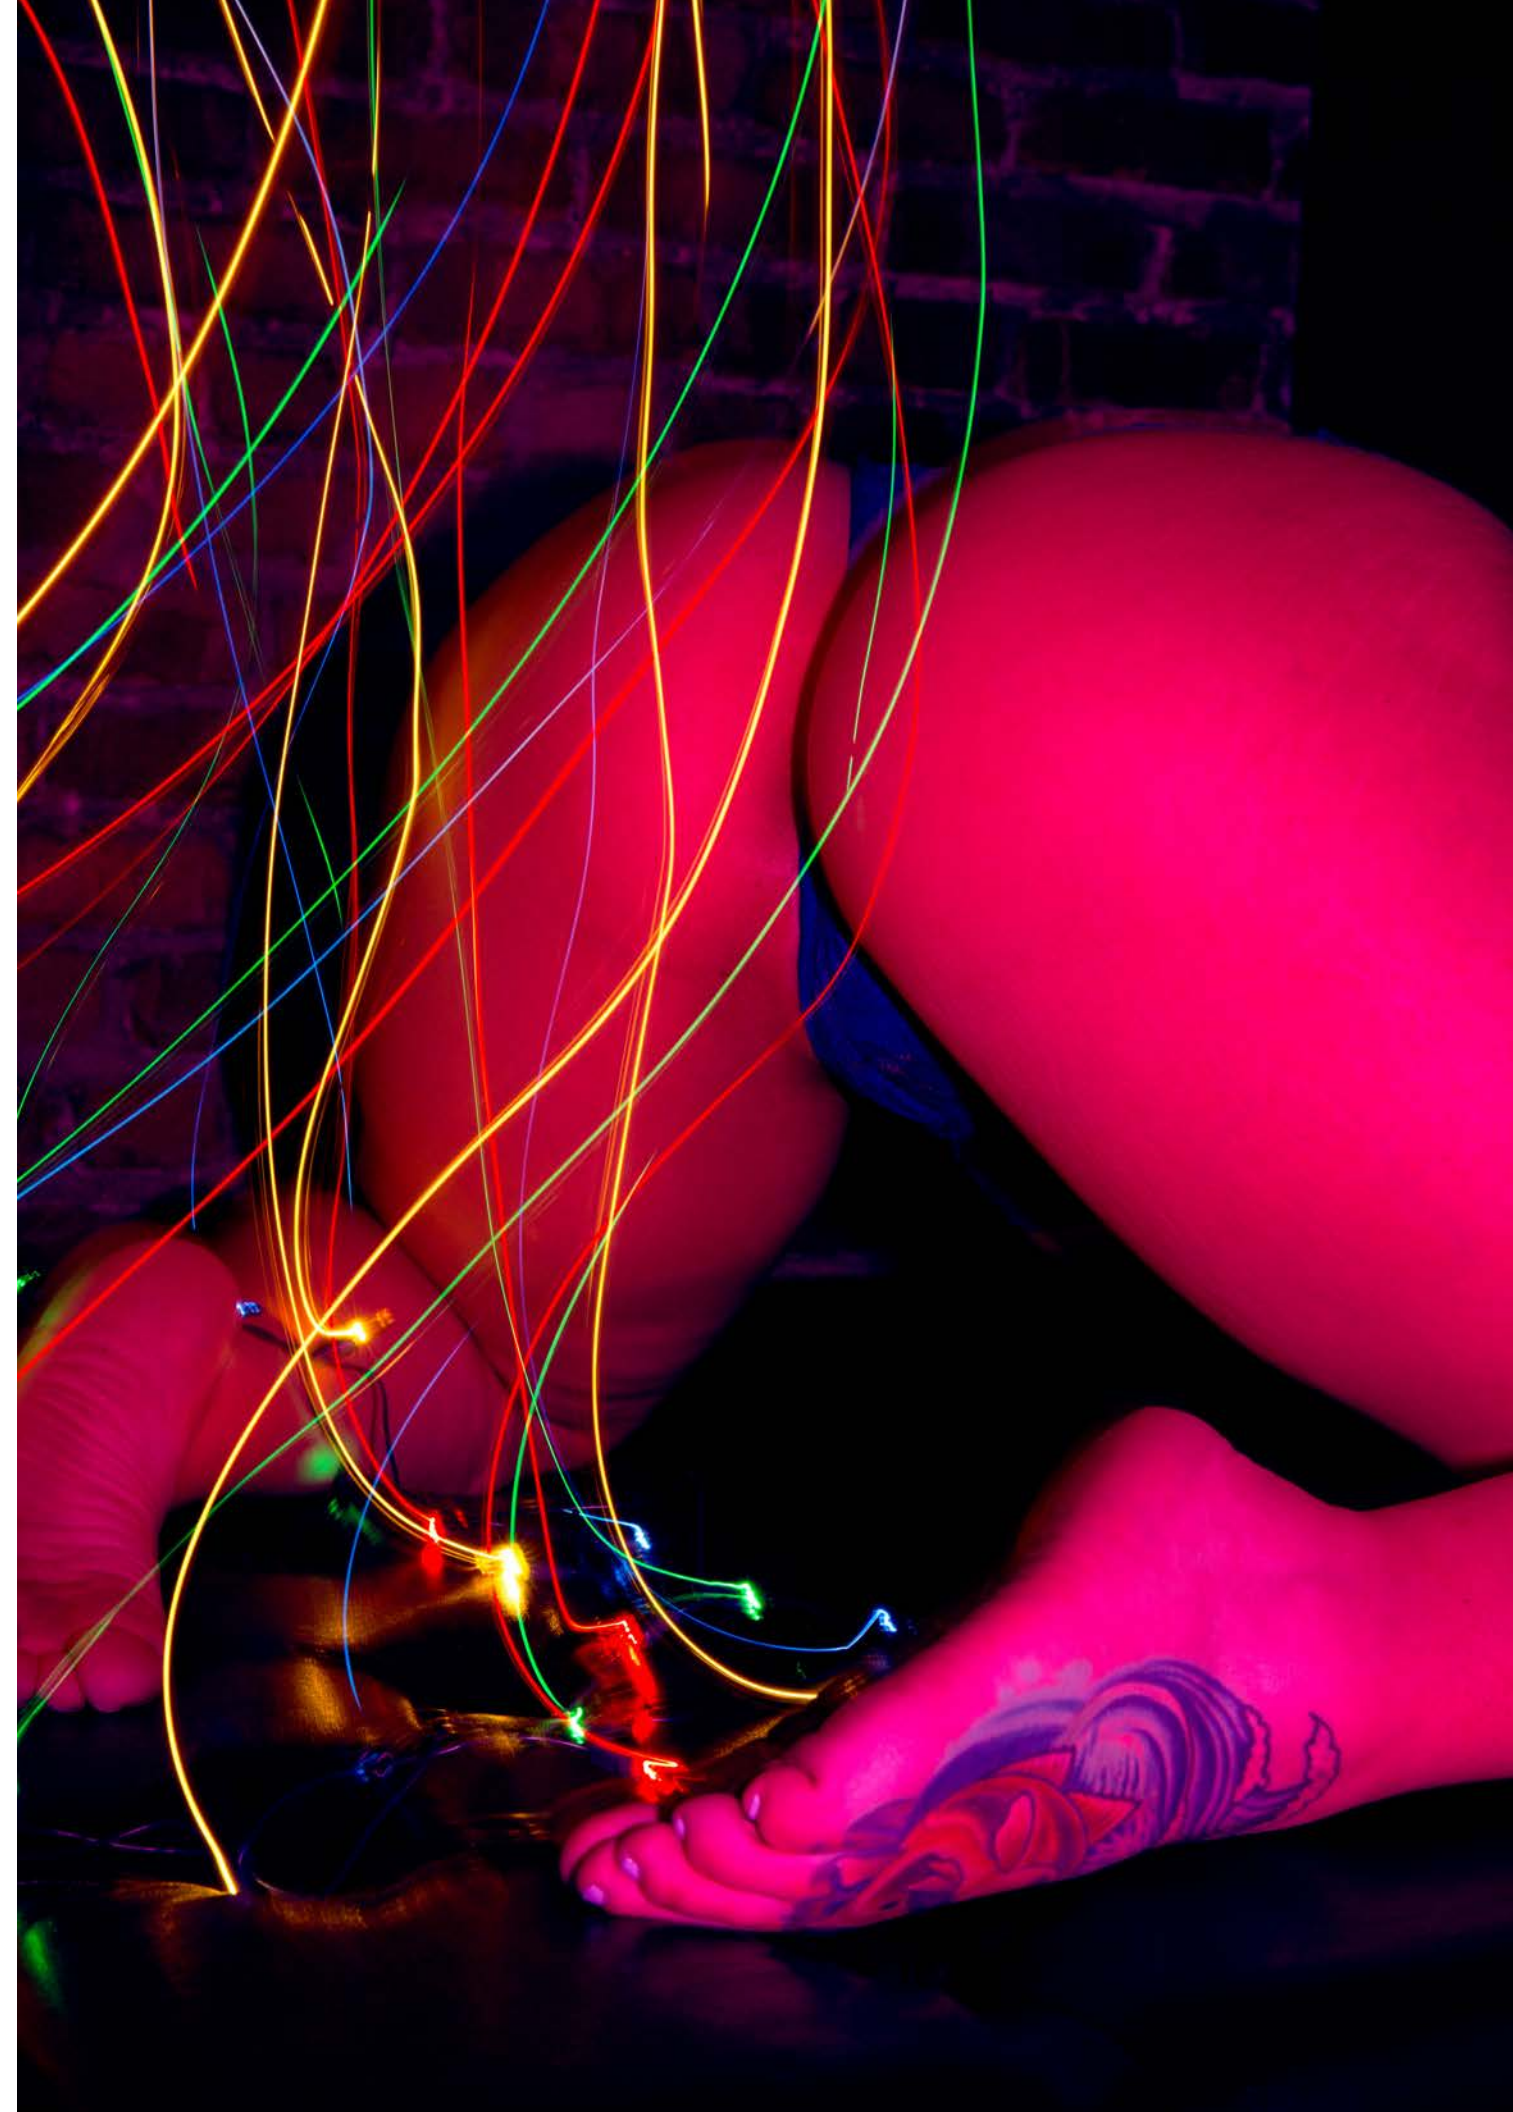

When I realized that I had a high pain tolerance. One day, I just decided to get some piercings, and it turned into more and more. I have 10 now.

2. What is your favorite way to spend time off?

I love fishing! In Florida we do a lot of that. I love to fish as a sport and to catch dinner. My tattoo on my foot represents the biggest fish I've caught so far, which was a 40-pound Red Drum. I hope to get more great catches to get tattooed.

3. What five words best describe your personality?

Creative, stubborn, wholehearted, diligent, and optimist.

“
***I like bondage,
it's super sexy!***”

4. If you could live abroad for a year, where would you go to and why?

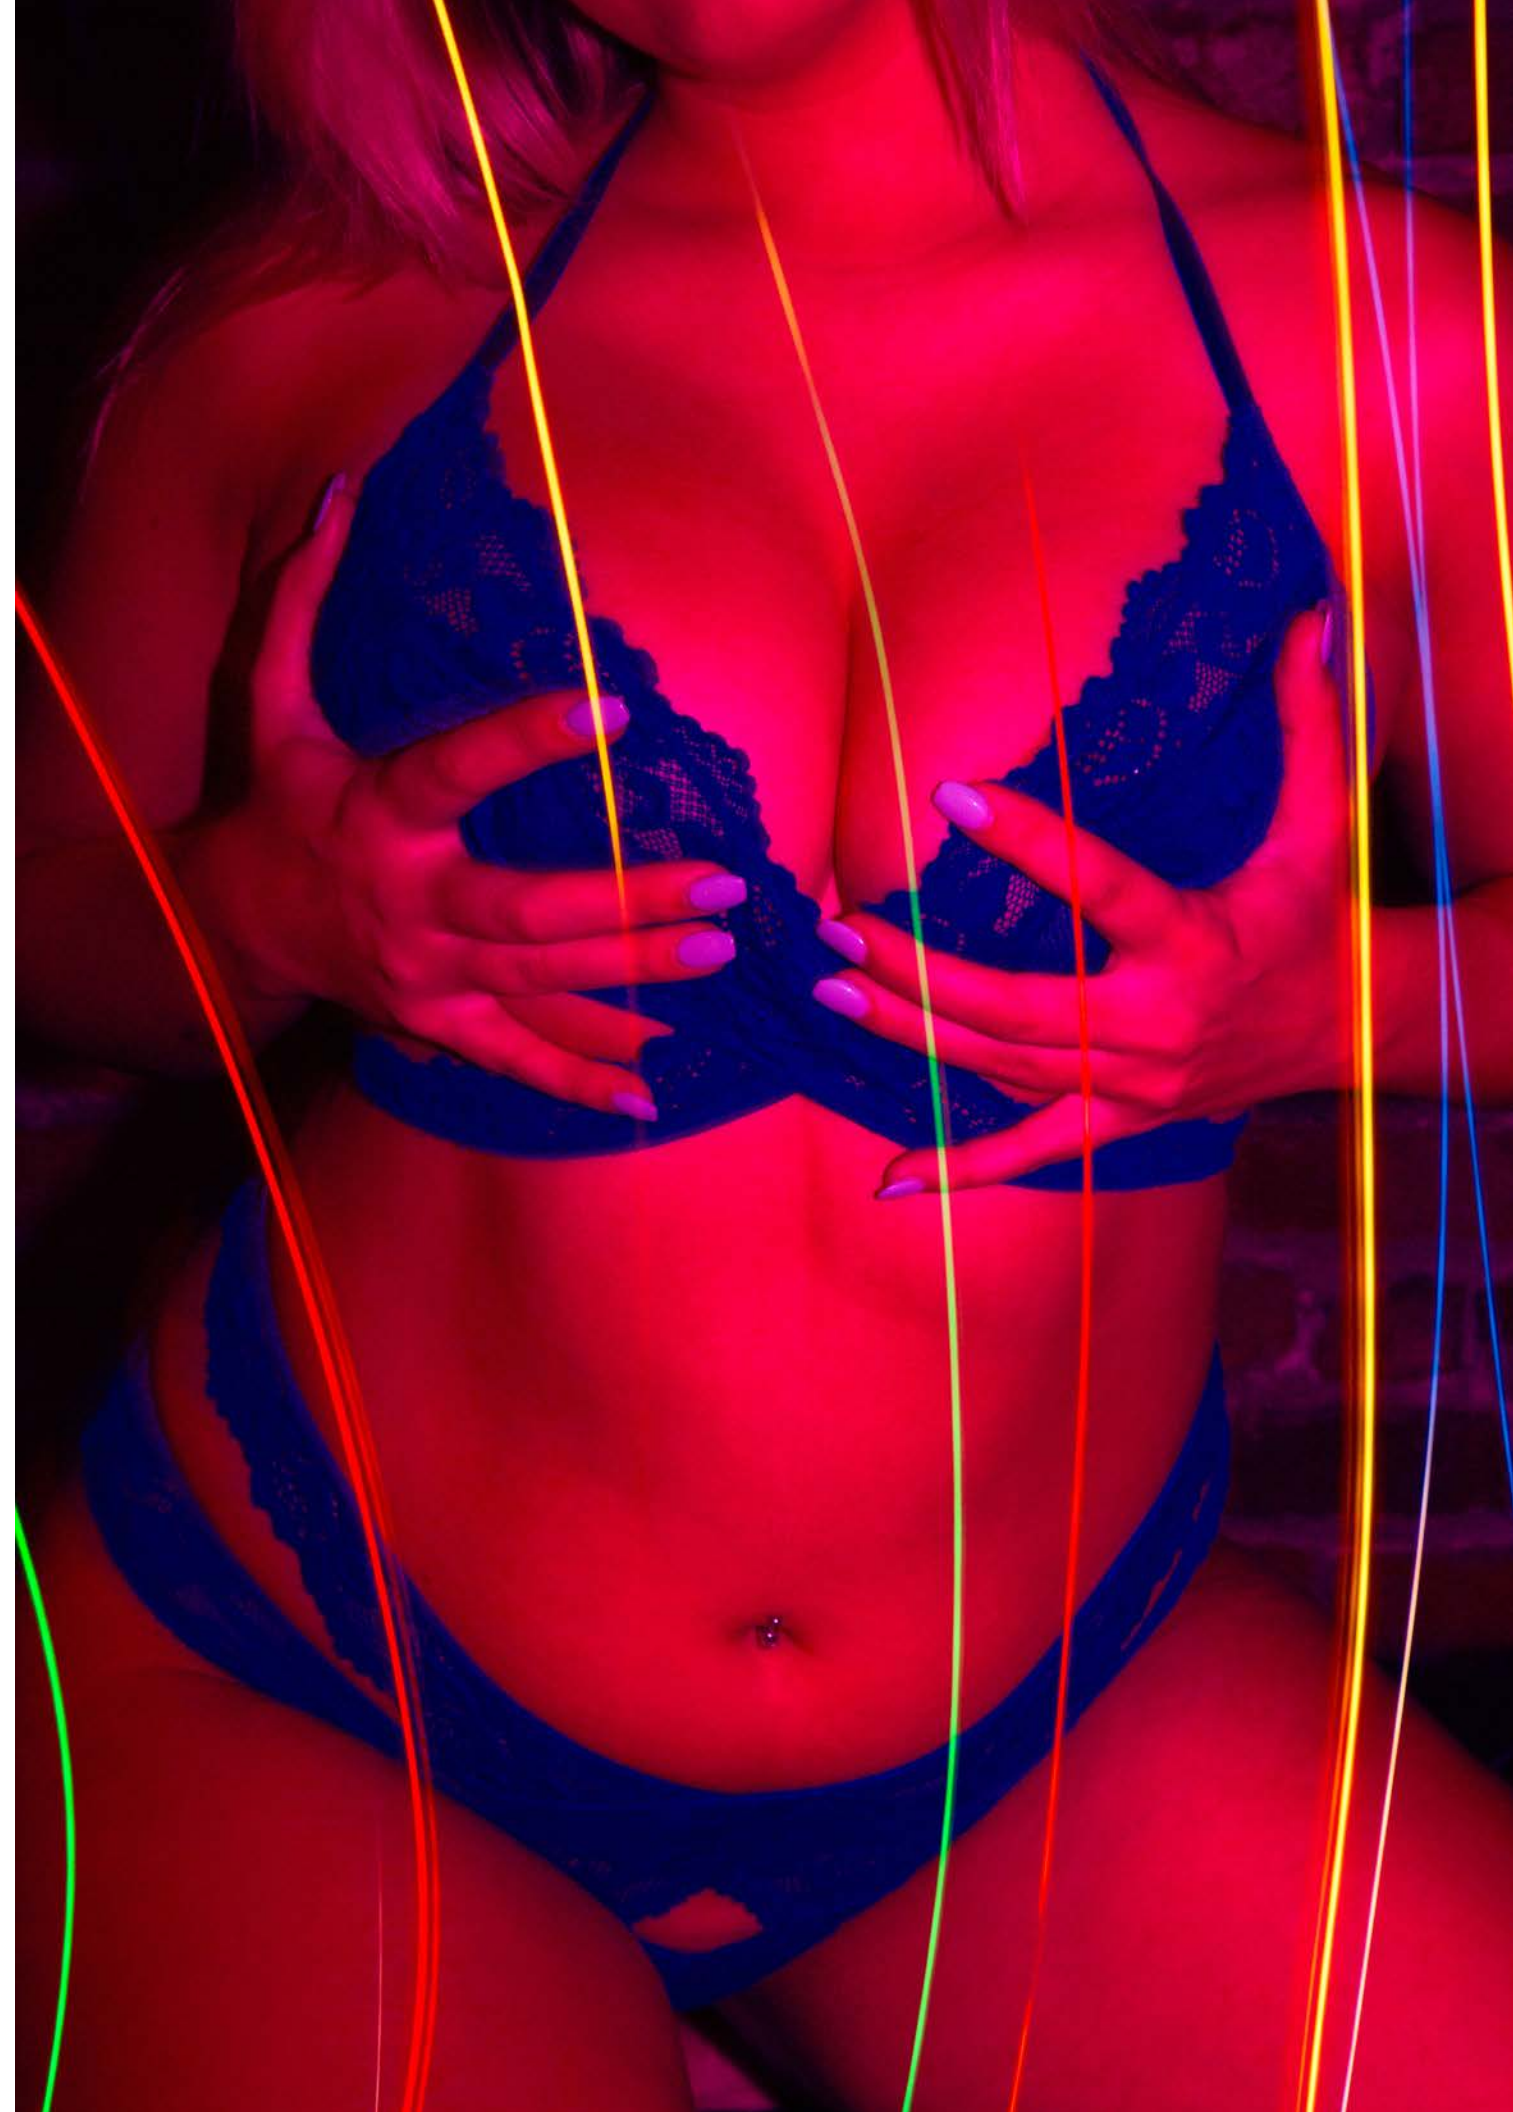

Probably Greece, I'm half Greek but I've never really lived there. I've visited and I love it. Learning the language would be easier, too.

5. What do you love the most about making porn?

Those moments when you realize that one person was definitely not the best sex you've ever had. There's so much more to sex.

6. What fetishes do you enjoy the most?

I like bondage, it's super sexy! I like foot fetishes because I like my feet and I don't mind showing them off at all.

7. If you were to start a second career, what would you try out?

I hope to make beautiful artwork and sell it in my own gallery as a second career. I've sold some of my art before, so I definitely know it's possible.

8. Who would you want to be trapped in an elevator with, and what would you want to do with that person?

Matt Sanders, aka M. Shadows, because I love him. I'm a huge fan of Avenged Sevenfold. I would want to take pictures with him for sure. Just to chat, though, would be so awesome.

See her take off.

1. Where is your favorite place to shoot vids?

I love shooting in a nice hotel, Airbnb, or something similar. Having control over lighting, room temp, and even sound, all mean a lot to me since I'm kind of a perfectionist. Outdoor shoots are really fun as well, but in Canada the weather is a bit of an issue, so I'd love to travel and shoot somewhere tropical one day.

2. What category of video are you looking to try out next?

Cosplay! I've always been a drama nerd, and would love to spend more time on the roleplay, costume design, and storyline in some of my videos.

3. Have you seen anything recently that really turned you on?

Every time I open my Twitter I'm bombarded with sexy people and I LOVE it. Most of the accounts I follow are part of the sex industry (mainstream, and independent) so it's a constant timeline of hot people fucking. Recently two of my favorite cam models hooked up, and it was pretty amazing.

4. What inspires you to get up every day and do the awesome job that you do?

When I'm fully able to create the content I envision, and am rewarded for it through sales, or positive reviews, that's an incredible feeling.

5. What's one fact about yourself fans would be surprised to hear?

I love taxidermy, and plan to take classes in the future.

6. What are 5 things you wish more people understood about being a cam girl?

1. This is a job. Plain and simple. I have rough days, and times where I don't want to work, just like everyone else, but when cam girls express that we sometimes are attacked by people who don't understand that it's not ALL fun and games.

2. Being a cam girl is more than just being ON cam. The amount of time we spend outside of streaming gets overlooked by a lot of viewers. Some girls spend hours, days, and even weeks planning shows, games, or videos, without the guarantee that it will generate any revenue. Always tip if you have the ability!

3. We don't all have "Daddy Issues," many of us are VERY talented in a variety of ways, and becoming a cam model is an educated choice many happily make.

4. Just because we share our time and intimacy with you, it doesn't mean we want unsolicited pictures from you. Dick pics are the WORST.

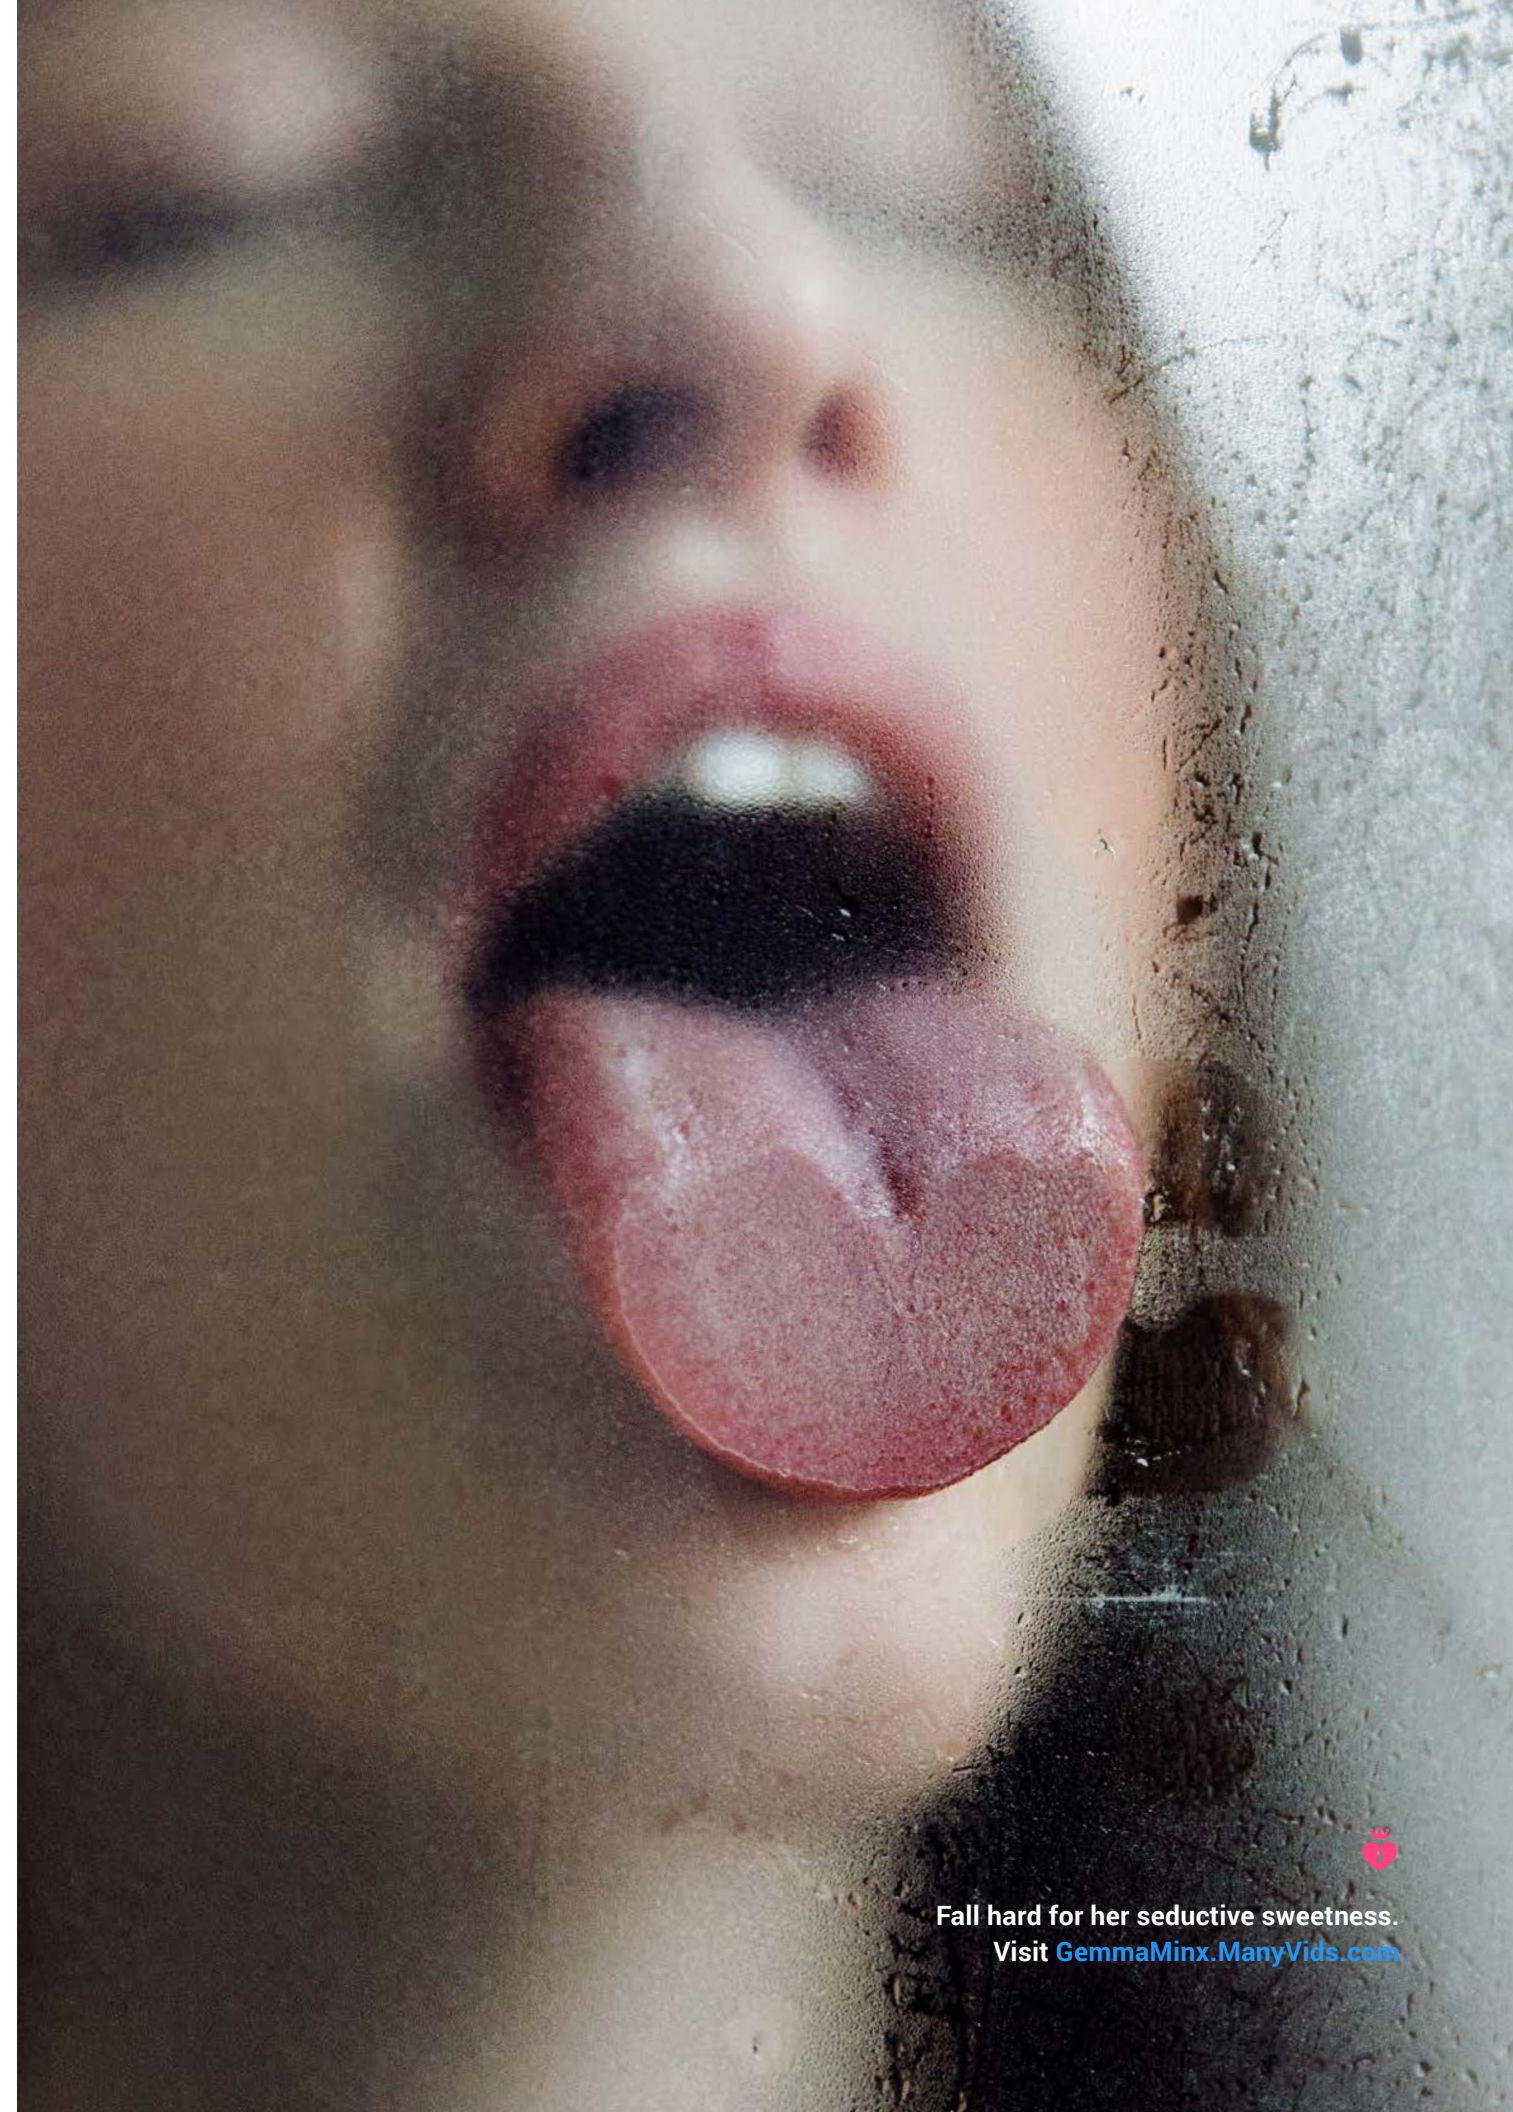

5. Many of us lead "normal" lives, have families, and don't go grocery shopping in 6-inch heels. I wear sweatpants most of the time. Sorry to ruin the fantasy.

7. What are your favorite types of gifts to receive?

Useful gifts. Haha. I have a paper shredder on my wishlist right now, which might seem silly to some, but I really need it. Also, new outfits or toys always help inspire me to make new videos.

8. Do you have a vid you're especially proud of?

It's hard to choose just one! I've been working with different editing techniques recently, so I'm definitely feeling a lot more confident about my newer content. I have a ton of video ideas for this year, and know there will be a few personal favorites to come.

Fall hard for her seductive sweetness.

1. How did you begin your adult industry career?

When I first started in the industry, I was working in a hotel as a housekeeper. After the first time I got on cam I knew it was what I wanted to do. So I quit my job to pursue my dream. I've known that I wanted to be an entertainer since I was a young child, though.

2. There's a fire in your house, you can only grab three things. What do you take?

Knowing me there would be a fire in my house! I've already almost set it on fire twice on cam. But the three things most important to me would be my blanky, his name is Blue and I've had him since I was born. I also have a book of memories with all kinds of memories from my past that I would save. And I'd also be sure to grab my phone, because it's one of the most important tools in my life.

3. Describe to us your dream vacation scenario.

I really love camming, so even when I'm on vacation I want to be working! So I would need high speed WiFi. I also love going to warm places since I spent my entire life in Finland around snow.

“

***If you can't love yourself
how in the hell are you going
to love someone else?***

4. Who do you look up to and why?

I don't want to sound narcissistic by saying this, but I look up to myself. I've overcome too much to ever let myself down. And since I'm my own toughest critic, I'm able to push myself to always be the best I can be. If you can't love yourself how in the hell are you going to love someone else?

5. Where do you see yourself in 20 years?

All I really want is to be happy and make a difference in the world, so hopefully I would have done that by then and have hopefully found a soulmate to spend my days with. I hope to have a steady source of income then too, and a family of dogs.

6. If you could improve three things about yourself, what would they be and why?

I am constantly trying to improve myself, so this answer is always changing for me. Currently, I'm trying to eat healthier, learning to take breaks from work, and trying to go out of my comfort zone to try new experiences.

7. What's the experience that made you grow the most as a person?

Moving to America was the hardest thing I've ever had to do, it was like I was climbing a mountain that got taller and taller with every step I took. But after I got over the mountain I was stronger, and smarter, than I ever was. I don't think I'll ever stop growing as a person, though.

8. What is your career plan for the next few years?

I'd really like to eventually do something to help animals and the environment. Right now I'm focused on creating content and growing my brand so I can use my voice to help the world!
